HAZARDOUS WASTE - Visit the Morris County Website for further information on Household Hazardous Waste Drop-Off Events at www.mcmua.com or 973-829-8006

STORMWATER POLLUTION AFFECTS ALL OF US

Stormwater pollution is one of New Jersey's greatest threats to clean and plentiful water, and that's why we ALL need to do something about it.

Pollution on streets, parking lots and lawns is washed into storm drains, then directly to our drinking water supplies and the ocean and lakes our children play in. Fertilizer, oil, pesticides, detergents, pet waste, grass clippings, etc., end up in our water.

By sharing the responsibility and making small, easy changes in our daily lives, we can keep common pollutants out of stormwater. It all adds up to cleaner water and it saves the high cost of cleaning it up once it's dirty.

As part of NJ's initiative to keep our water clean and plentiful, the Borough of Butler has adopted various ordinances to meet the requirements for clean water set by both State and Federal agencies. Please go to www.butlerborough.com and read the Stormwater Management Page for more details.
